

WELCOME TO AWAKE WORLD

~ Awake Sangha ~

Dear Awakened ones
May you guides on our path
At this 5 day summer retreat
At universal door
Awake essence
Please be pure
Follow your steps to wisdom

I felt nervous
On the first day
No intentions in my mind
With my luggage and my feelings
I felt crazy and blind
With new methods and new teachings
I'm trying to find my place
But with you as our guiding light
I can find my home awake

Welcome to awake world
Hear the light shine
From the eyes of clear water
Through corrections in my heart

Welcome to awake world
You are the guiding light
These teachings we won't forget
With you by our side

Day 1
Awake is our basis
Swim like a salmon
Back to the oasis

Meeting new people
The nuns, the youth, the teens
Experiencing the water demo
Ay it's what it truly means

Day 2
We starting to flow
As the dharma to the sangha
Please be the light
Towards our journey of Awake

Day 3
Box meditation creates isolation
And with the water balloons
We maintained our concentration

As we sit by the bonfire
And sing so near
We ultimately have the goal
Of becoming clear

Day 4
Today's a review
Using our teachings
Our gratitude's due

You've sparked our light
For the teachings combine
To prepare for tomorrow
To greet you as our sunshine

Day 5

With all our awake preparations
You've liberated darkness
Towards this destination

But actually let's slow this down a bit and say

Welcome to awake world
Hear the light shine
From the eyes of clear water
Through connections in my heart

Welcome to awake world
You are the guiding light
These teachings we won't forget
With you by our side
